

Educating for Dental Excellence

Colleagues

You are cordially invited to attend the 2023 Section of Defence Forces Dental Services (SDFDS) annual meeting 21-24 September 2023 at the Anzac Memorial, Hyde Park, Sydney Australia. The SDFDS meeting will be held as part of the 2023 FDI meeting in Sydney, Australia 24-27 September 2023.

The FDI WDC Sydney 2023 website ([World Dental Congress – Official Website for FDI World Dental Congress 2023 \(world-dental-congress.org\)](https://www.world-dental-congress.org)) provides a list of hotels within walking distance of the Anzac Memorial and the International Convention Centre where the WDC will be held. On the WDC website you can also find further information about the WDC.

I encourage you to attend the SDFDS 2023 conference to physically engage with world leaders in military dentistry and other participants on the critical issues that our militaries are working to solve currently, and to support our research into the future capability development for military oral health services.

The agenda for this conference will be set soon with these important themes in mind and I hope you will join us to contribute to this forum for thought development.

A registration link, payment details and further information will soon be available online at [Section of Defense Forces Dental Services | FDI \(fdiworlddental.org\)](https://fdiworlddental.org)

Abstracts can be send to: sam.osborn@defence.gov.au & wam.v.klink@mindef.nl (NLT 31 March 2023)

I look forward to seeing you in Australia.
