Dear Mr. Enzo Bondioni,

I am writing to express my interest in serving as a member of the Public Health committee within the FDI World Dental Federation. With a deep passion for public health initiatives and a strong background in dentistry, I am eager to contribute my skills and expertise towards advancing the goals of the committee.

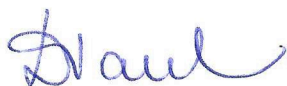

During my career as a dental professional, I have actively engaged in various public health projects aimed at promoting oral health awareness and improving access to dental care for underserved communities. For several years I worked actively in the CECDO, holding the position of the President for one term. As the delegate of the Slovak Dental Chamber, I am attending the FDI congresses and the Dental Parliament since the year 2000. Most of the years I was the NLO for Slovakia.

During my academic career in the position of the Head of the Orthodontic Department, I was leading the national project on screening of caries in children aged 5,12 and 15 years. The results have been published and cited. Being the co-author of the booklet „National recommendations for the oral health“ brought me the joy to work with the leading professionals in oral public health in Slovakia. Since 2008, the year I have graduated as master from the Public Health Faculty at the Slovak medical University, I have been dedicated to the work in the field of public oral health. As member of the Prevention committee of the Slovak Dental Chamber I was co-organizing various scientific and educational events.

I am particularly drawn to the FDI World Dental Federation's commitment to advocating for global oral health and its mission to support oral health professionals worldwide. I am excited about the prospect of collaborating with like-minded professionals on the Public Health committee to develop strategies and initiatives that will have a meaningful impact on oral health policies and practices internationally.

Thank you for considering my application. I look forward to the opportunity to contribute to the important work of the Public Health committee within the FDI.

Sincerely,
