INTENT LETTER

I have been a clinician for many years, contributing to our professional association. I closely follow both the practical and institutional aspects of our profession's future in general dentistry as well as Oral and Maxillofacial Surgery.

As a member of the Central Administration Board of the Turkish Dental Association, I have been actively involved in local initiatives addressing the problems and proposing solutions for clinician dentists.

I am also engaged in studying the rapidly evolving global dental activities. In this regard, emphasizing the full role of dentistry in overall health and addressing chronic conditions such as systemic inflammation, diabetes, and cardiovascular diseases from a dental perspective becomes important with the aging of the world population. As dentists, we should take a forefront position in completing patients health by highlighting the importance of oral and dental health as a significant part of overall health.

I have been unanimously nominated by the Turkish Dental Association for the position of the Dental Practice Committee in the FDI Permanent Committees. I am eager to work towards the future of our profession and ensuring better oral and dental health services for the community, as deemed appropriate by all my colleagues in this esteemed position.

I respectfully submit my candidacy for your consideration.
