Mexicali, Baja California, Mexico. June 1st, 2024.

Dear FDI Members:

It's been my privilege to have served for three years on the FDI Education Committee as a member. I've had the opportunity to meet and work with top leaders in their respective fields in Dentistry, reviewing lectures from well respected speakers from all over the world, to help organize scientific meetings worldwide, both physically and virtually, as well as the lectures organized by FDI directly, such as the Oral Health Campus, and of course, the scientific program of the World Dental Congress.

It's been also a privilege to be part of the very first Young Dentists Forum, an initiative from our Chairman, Dr. William Cheung. As an instructor and teacher in the Orthodontic Residence program of my local University, I strongly believe that developing young speakers will be the seeding of the next generations of teachers and leaders worldwide, and by helping them get in organized dentistry is a big step in the right direction in our field.

Also, the development of the FDI Regional CE Program as well as the Master CE program under the supervision of this committee are essential to our members, who can take advantage from these opportunities to raise their scientific level in their fields of work and practices.

The Education Committee is intense, but in a good way, it's a lot of work during meetings and between them, but the reward is far greater, because I believe that the contribution made to reach the scientific goal of the FDI is worth it, and I offer my time and effort, along with the rest of my friends at the committee, to continue reaching, and why not, surpass the goals set for us.

Thank you for your time, and I hope to count on your vote to continue working for the Education Committee, and for all of you.

  
Dr. Antonio Estrada Valenzuela.  
Education Committee member.

  
**Dr. Sergio Curiel Torres**  
Presidente Asociación Dental Mexicana,  
Federación Nacional de Colegios de Cirujanos Dentistas
