Prof. (Dr.) Mahesh Verma

Vice Chancellor

Guru Gobind Singh Indraprastha University, New Delhi, India

and

Vice Chancellor,

Delhi Pharmaceutical Sciences and Research University, New Delhi, India

Member : FDI Science Committee

CANDIDATE FOR FDI COUNCILLOR

With great commitment, I present to you my **candidature for the position of FDI Councillor** and wish to contribute dedicatedly for achieving the objectives, as part of the team. My professional journey has been **intertwined with strategically creating oral health policy, building next gen institutions (as a follow up of policy evolved and put in place), pursuing futuristic R&D, and developing oral care practices including their delivery.**

I am **presently leading the Guru Gobind Singh Indraprastha University (GGSIPU), as its Vice-Chancellor.** It is a high ranking State University of the National Capital of India, situated in New Delhi.

The University has been repositioned and globally benchmarked through a strategic policy framework. **It has been accredited with the highest NAAC (National Assessment and Accreditation Council of India) grading A++, for 7 years, during recent cycle of Accreditation. The University has received the prestigious “Rising Star 2024” award from the QS world ranking.**

The University focuses on interdisciplinary and transdisciplinary activities and operates diverse educational, research and public policy programs through the University Schools of Studies (USS). The domains covered include Science, Technology, Engineering, Medicine, Pharmacy, Nursing, Automation & Robotics, Design & Innovation, Environment, Information & Communication, Architecture, Management, Humanities & Social Sciences, Education, Law etc.

Over the years, my efforts have led to affordable and effective patient care and nurturing and mentoring a new generation of young dental surgeons and healthcare professionals in India. **During my tenure of 35 years as Director-Principal of the India’s Premier dental school, the Maulana Azad Institute of Dental Sciences (MAIDS), the institution evolved into a place for world-class oral health care.** At par with any best institution in the world, MAIDS has under its umbrella specialty and super specialty departments. Each of the departments has acquired significant knowledgebase over the years, networked nationally and internationally and is recognized and appreciated by the peers.

I have developed several policy papers and made operational strategic frameworks oriented to enable oral health professionals to patients and to the community for oral health care. As the Acting President of the Dental Council of India and Chair of the Indian Council of Medical Research (ICMR) Dental Research Committee, I brought in policy interventions for next gen clinical (dental) practices and education. While **holding the office of President of the Indian Dental Association, I have led more than 75,000 dental care professionals in several community welfare projects developed and implemented systematically.** These projects were primarily focused on preventive oral health care and included such high-impact making themes as “tobacco cessation” and “creation of mass awareness about oral cancer”.

I am the Past President of Indian Dental Association and International Association for Dental Research (IADR) India Division. I was the Chairman of FDI – World Dental Congress 2024 held at New Delhi.

I have contributed to FDI activities as Science Committee Member for two terms, as well the Vice Chair of the Science Committee. Also, I am a Member of FDI Sub Committee/Working Group on “Artificial Intelligence in Dentistry” and “Antimicrobial Resistance Antibiotic Stewardship (AMR-ABS)”. I chaired a session entitled “New Strategies for the Management of Oral Cancer: The Crucial Role of Dentists and Dental Teams” in the FDI World Dental Congress held in Sydney. I was part of the FDI Team which developed a white paper entitled “The Essential Role of the Dental Team in Reducing Antibiotic Resistance” and the policy statement on “Alcohol as a Risk for Oral Health” adopted by the FDI General Assembly: September 2023, Sydney, Australia.

My agenda as a FDI Councillor will be to strengthen the policy and the support system for outcome driven activities. The professional knowledge and experience I have acquired over 4 decades would enable me deliver and connect as well with the healthcare professionals globally. Newer networks will be developed which would help in evolving policies for advancement of the oral health knowledge & practices with collaborations and their deployment.

Prof. (Dr.) Mahesh Verma
