To be eligible for election to a standing committee, nominees should meet the specific criteria for each committee listed below. Please tick the boxes below if the corresponding criteria are met.

Membership Liaison and Support Committee

- Able to communicate effectively in English, verbally and in documents
- Documented knowledge and experience of working within a national or international organization
- Documented knowledge and experience in promotion of health policies of writing, printing and/or publishing
- Networking and communication skills
- A successful candidate evaluation results (only in case of nomination for re-elections)

Dental Practice Committee

- Able to communicate effectively in English, verbally and in writing
- Documented knowledge and experience of clinical dental practice
- Experience in the management of projects related to dental practice
- Knowledge in areas relevant to the practice of dentistry, such as dental and professional legislation, ethics, practice management, working within a dental team, education, community oral health, etc...
- Experience in policy formulation, management and advocacy in the field of dental practice
- A successful candidate evaluation results (in case of nomination for re-elections)

Education Committee

- Able to communicate effectively in English, verbally and in writing
- Documented knowledge and experience in organising continuing education programmes for dental practitioners, lecturing experience, and knowledge of educational and training methods
- A record of attendance/participation of international dental congresses
- Contacts (network) of internationally renowned dental scientists and speakers
- A successful candidate evaluation results (in case of nomination for re-elections)

Science Committee *Note: for Science Committee, a mix of members with expertise from different areas is important. There is currently a requirement for candidates with experience in the fields of oral pathology / oral medicine, gerodontology / general dentistry and periodontology.*

- Able to communicate effectively in English verbally and in writing
- Post-graduate scientific qualifications
- A substantial record of publications in scientific journals especially dental
- Experience in the management of scientific projects
- Knowledge of the principles and practice of evidence-based dentistry
- Contacts (network) of internationally renowned dental scientists
- A successful candidate evaluation results (in case of nomination for re-elections)

Public Health Committee

A post-graduate academic qualification in dental public health or preventive and community dentistry is an **asset**. Please tick this box if applicable

- Able to communicate effectively in English, verbally and in writing
- Documented knowledge and work experience in dental public health c.q. oral health promotion and disease prevention
- In depth knowledge and documented experience relevant to areas of dental public health, such as disease prevention, fluorides, oral cancer, tobacco, nutrition, disease risk factors and health promoting behavioural aspects, community oral health etc.
- Documented experience in aspects of oral health development projects, such as developing, implementing, managing and evaluating these projects
- Experience in the development, implementation and evaluation of community-based projects and programs, including awareness, education and promotion, for different types of population.
- Experience in policy formulation and advocacy at highest levels in the

-
- field of (dental) public health and/or in high level decision making in international or national (dental) organisation
- Experience in epidemiology or public health research
 - Contacts (network) of internationally renowned dental scientists or key health decision makers
 - A successful candidate evaluation results (in case of nomination for re-elections)

Motivation Letter

With this motivation Letter, I would like to confirm my great interest to join the FDI Education Committee.

In addition to my 35 years experience in privat practice and gradually, starting in the nineties as, part-time consultant , then, assistant professor to end as associate professor in different dental schools in Europe and USA; Back to Morocco in the year 2003, I'm currently Director of the Casablanca Oral Rehabilitation Training & Education Center; Professor/Head of the Biomaterials Research department at the International University of Agadir (Universiapolis), together with a position as Professor / Director of the Digital Education program, privat University of Fes. In parallel with this private and Academic experience, I also had a modest career path as board member of scientific societies. Please find here some of the major ones. Clean Implant Foundation, Germany, SENAME (South Europ, North African Middle East. Implantology and Modern dentistry Asso.); Digital Dentistry Society (DDS) as immediate past president.

Moreover, I'm member of the Editorial Board of the Clinical Implant Dentistry & Related Research, Journal of Dentistry & African Dental Journal and Co-editor of a state of the art book on **Digital Dentistry Science & Clinics** By *C. Mangano, H.Lerner, J. Mouhyi, G. Luongo* Copyright © 2021 Digital Dentistry Society. Lugano, Switzerland

My great interest in digital dentistry over the last ten years, expressed as being active member in scientific societies , lecturer and author of articles in this new era of dentistry, has led me to want to join the FDI's prestigious Education Committee. It will be an honor for me, to bring my modest contribution to help operate the shift from analogue to digital dentistry in dental schools continuing education programs worldwide, under the umbrella of the FDI.

Education in this new modern dentistry era, means for me, the initiation of its products and processes democratization. This ties in with my ultimate motivation, which is to make dental care in emerging countries, easier for everyone. Without geographical restrictions and the barriers related to the accessibility for patients to the nearest healthcare office, we can dream to provide minimal dental care as fare as possible inlands using digital and artificial intelligence tools. We are initiating several social/dental missions today in the Moroccan mountains, far from all healthcare structures thanks to the help of mobile offices equipped with intraoral scanners, 3D printers and digital radiograph. we are able therefore, in some cases, to provide the patients with optimal rehabilitations almost immediately even if the major problem today remains, above the equipment, the educational level of the teams involved.

The sad observation today is that education for Digital tools and processes is a need everywhere; from state universities, to private schools, post-grad programs, upgrade programs for educators; Assistants and nurses schools...etc. This leads to a serious delay of the academy compared with the companies R&D departments provoking an dangerous transfer of power between the scientific community and the highly efficient and speedy industrial world. To brainstorm on all those exciting challenges, I would very much like to get this opportunity. as this would give me a chance to help and support the idea of a new dental education model and to put my enthusiasm, experience and knowledge into action.

Thank you for considering my request. I look forward to your positive response.

Best regards

Prof. Jaafar Mouhyi *DDS, PhD*

Casablanca, 14 May 2024

Subject: Candidacy of Pr. Jaafar Mouhyi to the position of member of the Education Committee

Dear President,

I have the honor, as President of the Moroccan Association of Oral Prevention, to ask you to kindly give your support for the candidacy of Professor Jaafar Mouhyi for the position of member of the education committee.

Professor Jaafar Mouhyi is Professor and Director of the Digital Education program, private University of Fez, and head of the Biomaterial research department at the university of Agadir, Morocco, Past-President of the Digital Dentistry Society, International Board Member of several associations and foundations promoting modern dentistry. He spares no effort to contribute to the promotion of oral health and continuing education making our Association a reference in the field of oral prevention in Morocco. Moreover, he is considered as the Digital dentistry pioneer locally and one of the Major actors of this new era of dentistry worldwide. His topic of interest today is the promotion of digital technologies in undergrad and postgrad dental education.

Professor Jaafar Mouhyi, with his commitment and experience in the field of Digital Dentistry Education , will certainly be a member able to promote all the activities of the education Committee that are part of the FDI guideline.

Mr. President, Professor Jaafar Mouhyi is appreciated for his professional and human qualities, I remain convinced that with him the objectives of the FDI, National Associations and Regional Organizations will be achieved.

I kindly request the support of your national association and confidence as well, for his election to the FDI education Committee and would like you to accept the expression of my highest consideration.

AMPBD
The President
Dr Nawal RABI

Pr. Jaafar Mouhyi obtained his high school Diploma in 1983 at Abou Al Abbas Sebti College in Marrakesh, Morocco, he moved to Belgium in 1984, join Free University of Brussels (ULB) Dental school. In 1990, he obtained his DDS and then worked as an assistant clinical professor in general dentistry and involved in postgraduate Residency programs as the following

- Master in Biomedical engineering (Laser-therapy), Flemish Free University of Brussels (VUB) 1991

- Clinical training Diploma: Oral Implantology, Bränemark clinic, Göteborg University 1993

- Post-graduate Periodontology (ULB) 1994

- Post-graduate Laser-therapy (ULB), 1995

In 1995, he started a PhD thesis in an International Research collaboration program, Free University of Brussels and Sahlgrenska Academy at Goteborg University. Thesis Director: Pr. Lars Sennerby and Pr. Jack Walter Van Reck , defended in 1999

*Professor, Head of Biomaterials Research Department, International University of Agadir (Universiapolis), Agadir, Morocco.

* Director of the Digital Dentistry Center. Privat University of Fes, Morocco

*Faculty Member, Dental XP Implant Externship Program, NYU school of Dentistry, New York, USA.

*Since 2012 President, Union of Moroccan dental societies (UASOM)

*International Board Member of SENAME (South Europ, North African Middle East. Implantology and Modern dentistry Association).

Past-President of the Digital Dentistry Society DDS (2022- 2023)

International Board Member, Clean implant foundation, Germany

*Editorial Board member, Reviewer, Clinical Implant Dentistry & Related Research Journal

*Member of the editorial board of the African Dental Journal

*Reviewer, Journal of Dentistry "Digital Dentistry section"

*Dental XP Expert

*Ambassador "Slow Dentistry"

1994-2000 Head of the department of Oral rehabilitation & Implantology, St Pierre University Hospital, Brussels, Belgium.

President of the Moroccan Society of Periodontology & Implantology (SMPI) 2004-2005

Representative of the Moroccan Society of Periodontology at the European Federation of Periodontology (EFP) 2002-2005

1995-2016 Researcher, Department of Biomaterials & Handicap Research, Institute of Clinical Sciences, the Sahlgrenska Academy at University of Gothenburg, Goteborg, Sweden.

2004-2013

Assist. Clin. Prof. Diagnosis Sciences University of southern California, LA, USA (2004-2014)

Since 2006, Founder & Director, Casablanca Oral Rehabilitation Training & Education Center , Casablanca, Morocco.

Visiting Professor, Oral Surgery, Post graduate in Implantology Program, Naples University, Italy. (2014-2018)

Pr. Mouhyi is an international lecturer with more than 300 lectures and courses given in 35 countries, he also published several papers in the field of Biomaterials, Peri-implant pathology, Platelets concentrate technologies (PRP, PRF, PRGF) , Computerized guided implant surgery & Oral & Maxillo-facial implantology.

Peri-Implantitis: The Effect of Implant Surfaces and Positioning, ICOI International Congress Bellagio, LAS VEGAS, USA 27-30th of September 2018 **Pr. J. Mouhyi**

Importance of Implant quality and Positioning in the Periimplantitis etiology, Smart Casual Dentistry Congress / ICOI Hellas, Concert Hall, Athens 5-7th of October 2018. **Pr. J. Mouhyi**

GUIDED IMPLANT SURGERY: What are the long term benefits for tissues supporting implants? PERI-IMPLANTITES Mogador Hotel, Marrakech, 24-27th of October 2018 Pr. J. Mouhyi

GUIDED IMPLANT SURGERY: New findings and latest development. Digital Dentistry Society Global Symposium. Baden Baden 4-6 October 2019 Pr. Jaafar Mouhyi

SANTE ET PERENITE DES TISSUS PERIIMPLANTAIRES : IMPORTANCE DE LA QUALITE DES IMPLANTS ET DE LEURS POSITIONNEMENTS. Diplôme de chirurgie implantaire et parodontalé . Université de Bordeaux. 3 Décembre 2019 Pr. Jaafar Mouhyi

PERI-IMPLANTITIS : Side Effects of Implant Quality and Positioning. The Israeli Academy of Oral Implatology, Eilat, Israel 4-7 December 2019. Pr. Jaafar Mouhyi

Sleeveless Open Frame Template for a Reasonable Minimally Invasive Implant Surgery. AEEDC Dubai, Emirates. Dubai Convention Center 4-6 Febr 2020 Pr. Jaafar Mouhyi

Mes Implants sont-ils propres ? Peri-implantitis : What about the quality of my implants. Digital Academy. Paris 21 Avril 2020. Pr. J. Mouhyi

Requirements and technologies behind this tool called ""surgical guide" Exigences et technologies derrière cet outil appelé "Guide Chirurgical" Congrès MEGAGEN, Agadir Fevrier 2020 Pr. J. Mouhyi

What About Re-Osseointegration on a previously contaminated treated Implant Surface :**Myth or Reality. 4th International Sympsiu of Complications in Implant Dentistry. ONLINE, Tehertan, Iran June 30- July 3 2020.** Pr. J. Mouhyi

The Effect of Implant Surfaces and 3D Positioning on the long term implant success : Benefit of Implant quality & Digital Guided implant Surgery to prevent PERIIMPLANTITIS. International Academy of Ceramic Implantology / Ceramic Implantology, The new chapter in Implantology. Paris Las Vegas Resort, Las Vegas, Nevada. 19-21 August 2021 Pr. J. Mouhyi

SANTE ET PERENITE DES TISSUS PERIIMPLANTAIRES : IMPORTANCE DE LA QUALITE DES IMPLANTS ET DE LEURS POSITIONNEMENTS. Diplôme de chirurgie implantaire et parodontalé . Université de Bordeaux. 6 Octobre 2021

Peri-Implantitis: The Effect of Implant Surfaces and Positioning. European Diploma of Implantology. Universidad Europea Miguel De Servantes . October 8th 2021

Actuality and Futur of Digital Science and Clinics. Course and Demo done using Augmented Reality live in Italian Pavillon, Dubai Expo, in Duplex with The Fresderico Secundo University of Naples, Italy. Dubai, Emirates. 7th of February 2022

Osseointegration Et Propreté Des Surfaces Implantaires, IAD, Pavillon Royal, Boulogne, October 19.2022 PARIS.

Digital Dentistry : State of the Art. First Saudi Arabia international Digital Dentistry symposium and Exhibition. Riadh, December 3-4, 2022

Implant surface quality & Digital Guided implant Surgery : Two major parameters to prevent PERIIMPLANTITIS. 28th International congress of the Indian Society of Implantology, Nagpur, India, 22-24 January 2023

Digitally Driven Implantology: Benefits for optimal, supporting tissue outcome and stability AEEDC/DDS Symposium, Dubai February 2023

Soft tissue handling for optimal emergence profile : A paradigm shift driven by an innovative Abutment design. IDS Koln, Germany March 2023

GUIDED IMPLANT SURGERY: New findings and latest development THE INTERNATIONAL DIGITAL DENTISTRY CONGRESS, The Indian Dental Association & the Digital Dental Society JIO WORLD CONVENTION CENTRE, MUMBAI, JUNE 2023

Implant Surface Quality And Digital Guided Implant surgery: Two Major Parameters to Prevent Periimplantitis. AIM Academy, 5th international Symposium, GENEVA, 25-29 october 2023

Digitally Driven Implantology: Benefits for optimal, supporting tissue outcome and stability. The 8th Meeting ABOD 7th ~ 9th September 2023, Rio de Janeiro – Brazil.

Digitally Driven Implantology: Benefits for optimal, supporting tissue outcome and stability Implantologia Digitalmente Guidata: Benefici per outcome e stabilità ottimali dei tessuti di support. XXIst International SENAME Conference, Naples January 18-20 2024

One Step Full Digital Workflow: Benefits For Soft and Hard Tissue outcome & Stability Dental XP Global Symposium, Hollywood, Florida April 11-13, 2024
