with copy to Ms Maria Kramarenko mkramarenko@fdiworldddental.org
or **by fax** at +41 (0)22 560 8140

Motivation Letter

With this letter, I would like to express my interest in applying as candidate for re-election in the Education Committee.

I am glad to have the chance to serve our profession dental community and FDI in a global level during the last 3 years as a member in the education committee.

Today I am writing this presentation to apply for the re-election, depending on the great work and success that we did in the education committee together with my colleagues. I was happy to be part of the scientific committees who were responsible on creating the scientific programs of the FDI annuals WDCs at Sydney 2023, Istanbul 2024, Shanghai 2025 and finally Prague 2026. Also I was part of the task team who created and planned the FDI Master CE program, which is a very excellent initiative of the FDI, and since last year I became the chair of this task team. Proudly I am happy to see The FDI Master CE course are present in all continents today.

In addition I was happy to see the Regional FDI congress running in my country Saudi Arabia, which had a great success and presented FDI in the Middle East perfectly, I was a major factor to make this happen in our area.

I am a consultant in restorative dentistry and cariology rather than having a massive management expertise as; a board member in Saudi Dental Society, serving my Society for more than 16 years, 6 years I was the Vice President of the SDS.

Further I am the President of IDCE Makkah International Dental Conference and Exhibition a 30 years old annual conference. I am also part of AEEDC Dubai, as a board member at the Executive Board at the Global Scientific Alliance (GSDA) at AEEDC Dubai. Further I am an executive board member of the International Congress for Health Specialties, London, UK.

As a Saudi Arabian and having a strong relationships with all ME & African Arabic countries & Asian societies. So by utilizing my connections and relations I can act as a nexus between Asia, Africa, and ME especially that ME doesn't have representation in the council by which FDI strategy and direction could be easily disseminated and followed.

My core objectives are:

Public level:

- Complete my role on the education committee and the Mater CE task team to reinforce the education cycle in all over the world.
- Enhance the dental awareness and care across all socioeconomic classes.
- Highlight the importance of dental health/care beyond the cosmetic perception.
- Partner with patient societies to support underdeveloped and poor countries in ME - Liaise with different 3rd parties to sponsor mega campaigns.

Dentists' level:

- Help to expand FDI CE projects through my previous experiences and future events.
- Upscale academic and presentations dentists' skills.

Strategic level:

- Networking between the FDI and the different organizations across ME countries and: National Dental Associations, WHO & Ministries of Health.
- Cooperation protocol in all countries - Increase number of FDI members.

I would very much like to get this opportunity that would give me a chance to help and support people and to put my enthusiasm, experience and knowledge into action.

Thank you for considering my request. I look forward to your positive response.

Meshari Alotaibi

CURRICULUM VITAE

Dr. Meshari Faraj Al-Otaibi

(BDS, MSc, PhD, Swedish Board, Cert Implantology, PPG Diploma HC&HM)

Positions and current jobs:
