Written presentation from Dr. Yan SI (China)

I am Dr. Yan SI from the Department of Preventive Dentistry, Peking University School and Hospital of Stomatology (PKUSS), and I have been a dentist for nearly 30 years. I also work as director of Science Popularization for Chinese Stomatological Association (CSA), which is the only dental association representing most dentists in China. What's more, I have chance to manage and supervise some national public oral health programs and provide evidence to the authority for policy making.

I practice in clinic two days a week and provide treatment of caries, pulpitis, and periapical periodontitis for many patients. I take part in the academic and practical curriculum of preventive dentistry and teach graduate and undergraduate students in university. I also supervise some postgraduate students majoring in preventive dentistry.

I am organizing member of several academic programs, such as "Prevention and control of Early Childhood Caries", "Exploration of forecast index of primary teeth caries for 3-6 years old children", "Health economic analysis of xylitol chewing gum on dental caries" etc.

As member of the national panel group, I'm also responsible for managing, training and supervising the National public programs, such as "National Oral Health Survey", "Surveillance of oral health in China", "Promoting oral health of children in the Central and Western regions in China", etc. At the CSA platform, we carried out kinds of oral health promotion programs, such as oral examination, oral consultation, oral health education lectures, symposium, training courses and direct broadcasting online, and CSA would call for the dentists all of the country to carry out oral health promotion programs.

It's my great honor to have chance to participate several FDI programs, such as "Oral Health Observatory (OHO)", "Smile Around the World (SAW)", "Oral Health Promotion Programs on World Oral Health Day (WOHD)", and "Oral Health in Cleft Lip and Palate Patients (CLPP)". All the experiences are great treasures in my life, which let me enrich the experience of oral health promotion, oral diseases prevention, managing the community-based programs and national oral

health promotion programs, and the experience of communicating with the public officials to provide scientific support for policy decisions.

If I have the opportunity of working in the Dental Practice Committee, I would like to share my knowledge and wisdom with international colleagues, make my professional contribution for FDI and dentists all over the world.

If you agree, please grant me the privilege of serving FDI and you with your valuable support.

Sincerely,

Dr. Yan SI

Curriculum vitae

Dr. Yan SI

Ph.D

1. Personal Data

Nationality: Chinese

Gender: Female

Date of Birth: Feb, 24th, 1977

Titles:

1) Vice director, Clinical Professor, Department of Preventive Dentistry, Peking University School and Hospital of Stomatology

2) Director, Department of Science Popularization, Chinese Stomatological Association

3) Director, Oral Health Committee, Beijing Preventive Medical Association

4) Executive Committee and Academic Secretary, Society of Preventive Dentistry, Chinese Stomatological Association

5) Committee, Society of Dental Research Administration, Chinese Stomatological Association

Organization: Department of Preventive Dentistry,

Peking University School and Hospital of Stomatology

Address: No. 22 Zhongguancun Nandajie, Beijing 100081, China

E-mail: siyanyy@163.com

Tel: 86-10-82195561 , 86-13671155694

北京市海淀区中关村南大街 22 号 100081
22Zhongguancun Nandajie Haidian District
100081 Beijing China
电话/Tel:86-010-62179977
传真/Fax:86-010-62173402

2. Resume

1) Education

Aug, 2000--Jul, 2005 Master and PhD of Stomatological Medicine
School and Hospital of Stomatology, Peking University

Aug, 1994--Jul, 1999 Bachelor of Stomatological Medicine
School and Hospital of Stomatology, Beijing Medical
University

2) Work Experience

Dec, 2005--Present Department of Preventive Dentistry, Peking University

Aug, 1999--Jul, 2000 Department of Dentistry, Donghai People Hospital,
Jiangsu Province

3. Research

1) Interests

- ✧ Caries and periodontitis related clinical research
- ✧ Oral epidemiology
- ✧ Prevention and control of Early Childhood Caries
- ✧ Social study related to oral health (such as psychosocial study and health economic analysis)
- ✧ Oral health and general health (such as COPD, CHD et.al)
- ✧ Clinical trial related to oral health

2) Major Research Project (act as PI)

- ✧ Comprehensive prevention and control model for severe Early Childhood Caries (s-ECC)
- ✧ Exploration of forecast index of primary teeth caries for 3-6 years old children
- ✧ Application of fluoride supplement to prevent enamel demineralization of Orthodontic patients
